EDITORIAL NOTICE

Those who wish to purchase the orbit catalogues issued by the Minor Planet Center (cf. MPC 22089 and 19347) should note that additional charges must now be made for postage and handling. For the printed *Catalogue of Cometary Orbits 1993* the delivery surcharge is \$4.00 by surface mail or \$10.00 by airmail. For the printed *Catalogue of High-Precision Orbits of Unnumbered Minor Planets 1993* the surcharge is \$4.00 by surface mail or \$14.00 by airmail. For the two-volume printed *Catalogue of Orbits of Unnumbered Minor Planets 1992* the surcharge is \$8.00 by surface mail or \$25.00 by airmail. The surcharge for diskettes is \$4.00 by surface mail or \$10.00 by airmail. The charges to those who receive information by e-mail are unchanged.

Those who wish to receive the St. Petersburg *Efemeridy Malykh Planet (EMP)* should note that, except for a few North American recipients who also subscribe to the *Minor Planet Circulars*, all subscriptions for the 1994 edition are being handled, either by the Institute of Theoretical Astronomy, Naberezhnaya Kutuzova 10, St. Petersburg, Russia, or by the White Nights Trading Company, 520 N.E. 83rd Street, Seattle, WA 98115, U.S.A. The White Nights price, including shipping and handling, is \$50.00. *STAMP 94*, the MS-DOS diskette version of the *EMP*, is available for \$75.00.

Beginning with the 1995 edition, the Minor Planet Center will not handle *any* *EMP* subscriptions. Any *EMP* credit remaining in the accounts after 1993 Sept. 30 has been transferred to the corresponding *MPC* accounts. Because of the increased mailing costs in Russia, all those who receive *EMP 1994* from the Minor Planet Center or from the Institute of Theoretical Astronomy are requested to send \$12.00 to the Institute of Theoretical Astronomy (*not* to the Minor Planet Center). This payment should be either in a check (sent by registered mail) in U.S. dollars and preferably drawn on the Chase Manhattan Bank or Bank of New York, or it can be by Eurocheque for the corresponding amount in any European currency.
